## The Big Wind

*The paragraph below tells about a special date in April history. Can you find and mark ten errors in the paragraph? You might look for errors of capitalization, punctuation, spelling, or grammar.*

On April 12, 1934, a big wind blue in New Hampshire? At 231 miles per hour, it was the strongest wind ever measured on earth's surface the wind were recorded during the morning hours at a weather observatory atop Mount Washington. That observatory records hurricane-force winds more then 100 days each year. Mount Washington, what is in the clouds about 60 percent of the time, is called the "Home of the Worlds Worst Weather.
