## Leap Second

*The paragraph below tells about a special date in December history. Can you find and mark ten errors in the paragraph? You might look for errors of capitalization, punctuation, spelling, or grammar.*

You may no the meaning of “leap year,” but has you herd of the leap second. In paris, a special groop of experts tracks the rotation of Earth from day to day. On December 31 each year, they may chose to add or subtract a second from clock time. It is necessary to add a leap second nearly onse a year on that day or june 30. All leap seconds since the first in 1972 have been *aded* to clock time. Subtractions are unlikely, but they are possible.
