

Inchworm Pencil Topper

By Sherry Timberman

What you need:

- scissors
- ruler
- felt
- tacky craft glue
- 1-inch pompom
- chenille stick
- wiggle eyes
- pencil

How to make it:

1. Cut out a 1-inch-by-7-inch piece of felt. Snip six holes along the length of it.
2. Use tacky craft glue to attach a 1-inch pompom to one end of the felt.
3. For antennae, bend a short chenille stick into a V shape and curl the ends. Glue it to the pompom. Add wiggle eyes. Let the glue dry.
4. Weave a pencil through the holes in the felt.
