

2. Ice Cream

Elmer, Frank, Michelle, Nerissa, and Zora, whose last names are Anderson, Dowden, Garvey, Hinton, and Jones, have favorite ice cream flavors, one to each person. The flavors are butter pecan, chocolate, lemon, strawberry, and vanilla.

Match everything up from the clues below.

1. Jones and the person whose favorite is butter pecan bought Hinton his favorite ice cream.
2. Anderson and his sister both have the same favorite, which isn't chocolate.
3. Michelle, Garvey, and the girl whose favorite is butter pecan went to the ice cream store with Elmer and Anderson.
4. The girl whose favorite is lemon teased Michelle about having ice cream on her nose.
5. Anderson and the person whose favorite is strawberry walked to the store with Michelle.
6. Zora's favorite is not butter pecan, but she likes it a lot anyway.

ANSWER

Zora is female (6). Hinton (1) and Anderson (2) are males. Elmer isn't Anderson (3), so Frank is, and Elmer is Hinton.

The girl whose favorite is butter pecan (3) isn't Michelle (3) or Zora (6), so she is Nerissa. Nerissa isn't Jones (1, butter pecan) or Garvey (3, butter pecan), so she is Dowden. Michelle is not Garvey (3), so she is Jones, and Zora is Garvey.

The girl whose favorite is lemon (4) is not Michelle (4), so she is Zora. Strawberry is not the favorite of Anderson (5) or Jones (5, Michelle), so it is the favorite of Hinton. Anderson's favorite is not chocolate (2), so it is vanilla, and Jones' favorite is chocolate.

NAME	ICE CREAM FLAVOR
Elmer Hinton	strawberry
Frank Anderson	vanilla
Michelle Jones	chocolate
Nerissa Dowden	butter pecan
Zora Garvey	lemon
