

FINDING THE MATCHING FIGURE

DIRECTIONS: Match the figure in the top row to one of the figures in the bottom row. Look closely—the matching figure may be hiding.

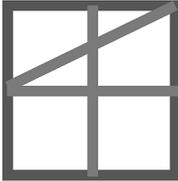

9

A B C D

Figure 9: A square containing an upward-pointing triangle with a horizontal line across its middle. Below it are four options: A (triangle with horizontal line, inside a square with a decorative border), B (inverted triangle with horizontal line, inside a square with a decorative border), C (right-pointing triangle with horizontal line, inside a square with a decorative border), and D (upward-pointing triangle with horizontal line, inside a square with a decorative border).

10

A B C D

Figure 10: A square divided into four quadrants by a vertical and horizontal line, with a diagonal line from the top-left to the bottom-right. Below it are four options: A (a circle inside a square), B (a square with an 'X' inside), C (a square divided into four quadrants by a vertical and horizontal line, with a diagonal line from the bottom-left to the top-right), and D (a square divided into four quadrants by a vertical and horizontal line, with a diagonal line from the top-left to the bottom-right). The options are surrounded by a border of the letter 'E'.

FINDING THE MATCHING FIGURE

DIRECTIONS: Match the figure in the top row to one of the figures in the bottom row. Look closely—the matching figure may be hiding.

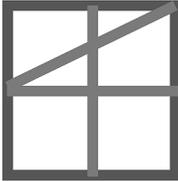

9

A B C D

Figure 9 shows a target figure at the top: a square with a triangle inside. The triangle's top vertex is at the top edge of the square, and its base is a horizontal line below it. Below are four options: A (triangle with top vertex at the bottom), B (triangle with top vertex at the top and a horizontal line above it), C (triangle with top vertex at the right), and D (triangle with top vertex at the top and a horizontal line below it, identical to the target). Option D is circled in red.

10

A B C D

Figure 10 shows a target figure at the top: a square divided into four quadrants by a vertical and horizontal line, with a diagonal line from the top-left to the bottom-right. Below are four options: A (a circle in a square), B (a square with an 'X' inside), C (a square with a vertical and horizontal line and a diagonal line from top-right to bottom-left), and D (a square with a vertical and horizontal line and a diagonal line from top-left to bottom-right, identical to the target). Option D is circled in red.
