

Success and Failure

It is often said that "failure is a better teacher than success." What does that mean to you?

If you run out of room above, use the back of this page or get another sheet of paper.

I don't mean to "bug" you, but you might...

- list three times you failed at something you tried to do.
- think about what you learned from those failures.
- include in your writing a couple examples of lessons you learned the hard way.
