Born on February 15, 1820, Susan B. Anthony learnt early in life about the value of justice. A teacher for many years, she became active in a movement that encouraged people not to drink liquor. Since Susan was a woman, however, she wasn’t allowed to speak at that movement’s rallies. So she found other causes. She traveled the country as a speaker against slavery and for women’s rights. Did you know that she was once arrested for voting.
