

# Backpack-tivity:

## An @Home Learning Activity

### Family Travels

**Introduction:**

As you complete this activity, you'll write about a favorite family trip.

**Materials:**

You'll need photos, souvenirs, and other mementos from a family trip or art supplies to draw pictures of the trip, a notebook, and a pen or pencil.

**Directions:**

Collect photographs from a trip your family took. Paste the photographs, or draw pictures of the trip, in a notebook, one photo or drawing per page. Be sure to paste or draw the pictures in the order in which the events occurred. Interview family members about the trip and write down their memories in the notebook beneath the appropriate pictures. Fill in the remaining pages with memories of your own. On the last page of your travel journal, draw or paste a map of the trip. Leave the book where other family members can read it and remember the trip.

**Talk About It:**

What was your favorite part of the trip? Record your thoughts on the lines below.
