

Backpack-tivity:

An @Home Learning Activity

Number Search

Introduction:

As you complete this activity, you'll practice working with numbers.

Materials:

You'll need a pen or pencil and paper.

Directions:

Family Partner: Before you leave on a car ride, draw a "Number Search" grid, with five boxes across and 10 boxes down. In each box, write a number from 1 to 50.

Student: When you see one of the numbers in the grid on a car, a sign, a building, or anywhere else, circle that number on the grid. Keep track of how long it takes you to circle every number.

Talk About It:

Make a list of all the ways you can think of that you use numbers.
