

Oink & Cluck

ONE DAY, as I was driving along a country lane,
I saw in the road ahead an overturned farm wagon.
Pigs and chickens were running everywhere!
Try as I could, I couldn't count all
those running animals.

But I did count 36 legs.

**Can you help me figure out how many
pigs and how many chickens there were?**

*There's more than one correct answer.
Make sure you show all the possibilities.*

PIGS

CHICKENS
