## Kennel Costs

Math skills: multiplication, division

Mushing and maintaining a kennel can cost a lot of money. Do the math below to learn more about how costly mushing can be.

1. DeeDee Jonrowe's kennel expenses for the year came to a total of \$53,700. About how much did she spend each month to run her kennel?
2. Veterinary bills for each dog run an average of \$230.00 per year. If there are 102 dogs in the kennel, how much will the total vet bill be for the year?
3. It costs about \$350 a month to maintain and care for a dog. If there are 102 dogs in the kennel, what will be the total cost for caring for those dogs each month?
4. What will it cost to care for 102 dogs for an entire year?
5. A musher bought a new custom-built sled for \$2,100. He will pay for the sled by making 12 monthly payments of equal amounts. How much will he pay each month for his new sled?
