*Read the paragraph below. In that paragraph, everybody's favorite adventurer, Mrs. Waffenschmidt, offers clues about the place she is visiting today. Use those clues to help you figure out where in the world Mrs. Waffenschmidt is. Write your answer on the line at the bottom of the page.*

**Wow, what a cool place! I'm way up in the sky. I think if I stretched out my hands I might almost touch the clouds. No wonder the early people of this land honored the sun. It was hardly ever seen way up here! Built by the Incas, this unique stone city is believed to have been a religious and holy place. It's a wonder how they got all the stones up to this height -- about 8,000 feet atop a mountain overlooking the Urubamba River. It's believed that llamas carried all the building materials up the mountain. Even the soil used for the farming areas had to be brought up from the river valley below. One of the biggest tourist attractions in South America, this wonderful place was found accidentally by Hiram Bingham in 1911.**

**Can you name the country I am visiting and this famous place?**
