

Where in the World Is Mrs. Waffenschmidt? #5

Name: _____

Date: _____

Read the paragraph below. In that paragraph, everybody's favorite adventurer, Mrs. Waffenschmidt, offers clues about the place she is visiting today. Use those clues to help you figure out where in the world Mrs. Waffenschmidt is. Write your answer on the line at the bottom of the page.

I've traveled to my next destination and I must say, "This place really rocks!" I'm standing in front of this *huge* red rock. It's truly massive -- 1-1/2 miles long! -- and it stands more than 1,100 feet above the desert floor. In fact, it is said to be the *largest* single stone in the entire world! Pretty cool, don't you think? Anyway, there are all these really neat caves that I can explore inside this gigantic rock. I can see lots of very unusual rock paintings made by the original people -- called Aborigines. The country where both the rock and I can be found was settled by the British after they lost the 13 colonies in the American Revolutionary War.

Can you name the country and the "rock" I am visiting?
