

Safe Fireworks

By Cheryl Stees

What you need:

- scissors
- red, white, and blue construction paper
- glue
- toothpick or straw

How to make it:

1. Cut several arc shapes from red, white, and blue construction paper.
2. Cut out two matching stars. Glue the arcs to one star. Glue a toothpick or straw over them. Then glue the second star on top.
3. Add color to a Fourth of July picnic by using the straw with a short drinking cup and by decorating a sandwich or cupcake with the toothpick.
