

# Pizza-Box Art Portfolio

*By Jennifer L. Jessop*

## What you need:

- pizza box
- damp cloth
- scissors
- construction paper or old magazines or calendars
- glue
- hole punch
- yarn
- tape

## How to make it:

1. Clean a (not too greasy!) pizza box with a damp cloth. Let it dry.
2. Decorate the inside, outside, and edges of the box with construction paper or pictures cut from old magazines or calendars. Glue them on.
3. To make a handle, poke two holes in the back panel. Thread yarn through the holes, and tie it in a knot on the inside. Close the box. Poke two holes in the front panel of the lid and the box. Wrap tape on the ends of a piece of yarn. Thread the yarn through the holes, and tie it in a bow on the outside to keep the box closed.
4. Fill your portfolio with sketches, paintings, and other art projects.
