Changing Letters

Name: _____ Date: _____

To the Students: Some of the letters can be made into the same letter if the mirror is placed on them in the right way. Try putting the mirror on the letter A, and you will see that you can make another letter A. Try this with all of the other letters. Not all the letters will work. Draw a line under the letters which you can make the same using the mirror. (*Example:* The letter A has a line under it since you can use the mirror to make another letter A from it.)

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

Some of the letters can be changed into a *different* letter with the mirror. Use the mirror to see if the letter A can become an H. Try all the other letters. Write the new letter or letters you can make from them below that letter. (*Example:* The letter H is written below A since the mirror can turn the letter A into an H.) Not all the letters can be changed into a different letter.
