

WHALE OF A GOOD TIME

Read the true story below, then make an inference based on the evidence in the story.

¹Sperm whales are known to be socially organized and divide themselves into different social groups. ²One group, formed by one adult male and several females, is called a harem school. ³Another group, consisting of playful young male whales, is called a bachelor school. ⁴Still a third group, consisting of adult female whales and their calves, has an appropriate name. Can you infer what this social group consisting of females and their calves is called?

Your conclusion: _____

Which sentence has the best evidence to support your conclusion? _____

FIGURE OUT THE ORDER

Using the clues, cross out each wrong answer to match each animal with its speed.

MORE TOP SPEEDS OF SELECTED ANIMALS

50 mph	40 mph	35 mph	30 mph	25 mph
elephant	elephant	elephant	elephant	elephant
jackel	jackel	jackel	jackel	jackel
hyena	hyena	hyena	hyena	hyena
lion	lion	lion	lion	lion
warthog	warthog	warthog	warthog	warthog

1. A lion can run twice as fast as an elephant.
2. A warthog runs exactly ten mph slower than a hyena.

50 mph _____

40 mph _____

35 mph _____

30 mph _____

25 mph _____
