

Think Quick!

1. When $\frac{1}{3}$ of the year is left, what month comes next?

2. What numbers go in the corner boxes to make the sum along each of the three lines 27? Use numbers 6–11, each only once.

3. How many even numbers between 300 and 400 have a 3 in them?

ANSWERS

Page 27: Think Quick!

1. September. Since $\frac{2}{3}$ of 12 is 8, the 8th month is over and the 9th is beginning.
2. 11, 10, 9. The three sums are $11 + 6 + 10$, $11 + 7 + 9$, and $9 + 8 + 10$.
3. 50. There are 100 numbers, all beginning with 3. Half of those are even.
