

TIME AND MEASUREMENT ---

65. Seven of the twelve months have 31 days in them. Eleven of the twelve months have 30 days in them. How many months have 28 days in them?

66. Before Mount Everest was discovered, what was the highest mountain on Earth?

TIME AND MEASUREMENT

ANSWERS

65. All 12 months have 28 days in them. This problem can cause an interesting discussion about whether we mean 28 or more (giving the answer of all) or exactly 28 (giving the answer of one) when we say 28 days. Responding with an answer different from the majority provides an opportunity for discussion.
66. Mount Everest—it just hadn't been discovered.
