Brain Ticklers

1. Pick a number. Add 4. Subtract 3. Add 5. Subtract 3. Add 2. Subtract 5. What did you get?

2. Penny's parents had three children. One was named Nickel, and one was named Dime. What was the name of their third child?

ANSWERS

Page 41: Brain Ticklers

- 1. The answer will be the number chosen. The additions and subtractions all add up to be 0, so you will end up with 0 + the number chosen.
- 2. Penny is the third child. "Penny's parents" is the clue.
