The World's Largest and Smallest Plants

The paragraph below tells about unusual plants. Can you find and mark ten errors in the paragraph? You might look for errors of capitalization, punctuation, spelling, or grammar.

Some plants and seeds are unique because of there size. One kind of palm tree in the Seychelles ilands has a huge seed that can weigh more then 60 pounds. Found in california, the tallest tree spesies is the coast redwood, which can grow over 375 feet high. The leaves of the giant Amazon water lily can grow as large as 8 feet across. Have you ever see Wolffia, the worlds smallest flowering plants, in a pond lake, or stream. two full-size Wolffia could fit inside a letter "o"!
