

All About Football

Read about the history of football and then answer the questions below.

Football is a very popular sport. Football is played on a field using a football. A football is an oval shape with pointed ends. There are two teams of 11 players. A team scores when the ball is moved across the other team's goal line. Football is a rough sport. Players wear helmets and pads.

Football started to be played in the United States more than 100 years ago! The first football games were played by students in college. Now, there is a league called the National Football League (NFL). Teams play games against other teams in the NFL. At the end of the football season, a game called the Super Bowl is played. The two best teams in football play a game to see who is the best.
