How do we convert from degrees to radians? \_\_\_\_\_

How do we convert from radians to degrees? \_\_\_\_\_

Approximately how many degrees are in one radian? (Use the conversion formulas.)

\_\_\_\_\_

Fill in the table below with the correct number of degrees and radians. Do not round radians, use pi in your answers.

Fraction of a Circle	Degrees	Radians
Whole		
Half		
Quarter		
Three Quarters		
		$\frac{\pi}{3}$
	45°	
	60°
