

Vegetable Garden

Read about vegetable gardens. Then, answer the questions.

A vegetable garden needs a sunny space. Vegetables should be planted in rows. This makes it easier to take care of them. Most seeds grow in 10 days. Tomatoes and bush beans are fun to eat and easy to grow. Water your garden 3 times a week. Make sure the soil gets very wet. Enjoy eating the vegetables that grow!

1. What type of space does a vegetable garden need? _____
2. How long does it take most seeds to grow? _____
3. What is one type of vegetable that is easy to grow? _____
4. How often should you water your garden? _____
