

POETRY SCAVENGER HUNT WORKSHEET NUMBER 2:

Before the activity began, did you think it was easier to recognize/find information when you heard the source or when you read the source?

Why?

During the activity was it easier to find the elements of poetry when the poem was read aloud or when you had the poem written on a piece of paper that you read yourself?

Why?

Did your opinion from the beginning of class change or did it stay the same?

Compare what you experienced when you heard the poem read aloud to what you experienced when you read the poem yourself. Did you understand the meaning or connect to the poem more during one or the other?
