

Stars

Read about stars. Then, fill in the chart.

Stars are giant spheres of superhot gas. Our Sun is a star. It is the star closest to Earth. Other stars are very far away. This is why they look so small. Stars give off their own light. Stars are different sizes. They can be big or small. Stars can be red, yellow, blue or white. Blue stars are the hottest. Stars are billions of years old.

Stars Can Be...	Stars Have...	Stars Are...
