

Human Body Systems

Directions: Several of the human body systems are written in code below. Solve the code by determining what each letter stands for. The first one has been done for you.

Hint: Whenever you see an “s,” it always stands for “r.” The “o” always stands for “e.” Fill in all the letters in the words below using the letters from the example. When you figure out a letter, write it everywhere it appears.

Next, look at the body parts in the box below. Find the body part that belongs in each system. Write the letter of that body part in the box to the left of each number.

1. $\frac{s}{r} \frac{k}{d} \frac{e}{o} \frac{l}{e} \frac{e}{o} \frac{t}{z} \frac{a}{k} \frac{l}{e}$
2. $\frac{\quad}{y} \frac{\quad}{s} \frac{\quad}{b} \frac{\quad}{g} \frac{\quad}{k} \frac{\quad}{s} \frac{\quad}{u}$
3. $\frac{\quad}{g} \frac{\quad}{o} \frac{\quad}{s} \frac{\quad}{w} \frac{\quad}{h} \frac{\quad}{y} \frac{\quad}{r}$
4. $\frac{\quad}{f} \frac{\quad}{y} \frac{\quad}{r} \frac{\quad}{m} \frac{\quad}{y} \frac{\quad}{e} \frac{\quad}{k} \frac{\quad}{s}$
5. $\frac{\quad}{o} \frac{\quad}{g} \frac{\quad}{n} \frac{\quad}{h} \frac{\quad}{m} \frac{\quad}{s} \frac{\quad}{b} \frac{\quad}{g} \frac{\quad}{o}$
6. $\frac{\quad}{n} \frac{\quad}{b} \frac{\quad}{q} \frac{\quad}{o} \frac{\quad}{r} \frac{\quad}{z} \frac{\quad}{b} \frac{\quad}{w} \frac{\quad}{o}$
7. $\frac{\quad}{m} \frac{\quad}{b} \frac{\quad}{s} \frac{\quad}{m} \frac{\quad}{y} \frac{\quad}{e} \frac{\quad}{k} \frac{\quad}{z} \frac{\quad}{h} \frac{\quad}{s} \frac{\quad}{u}$
8. $\frac{\quad}{s} \frac{\quad}{o} \frac{\quad}{r} \frac{\quad}{j} \frac{\quad}{b} \frac{\quad}{s} \frac{\quad}{k} \frac{\quad}{z} \frac{\quad}{h} \frac{\quad}{s} \frac{\quad}{u}$
