

Fill in the Blanks

125

Fill in the blanks to make this equation true.

$$\begin{array}{r}
 \square \square 9 \\
 + \quad \quad 4 3 \\
 \hline
 4 2 \square
 \end{array}$$

Thinking of a Number

126

I'm thinking of a four-digit number in which:

- the sum of the first and last digit is fourteen.
- the sum of the first and second digit is fifteen.
- the sum of all the digits is twenty-five.

			5
--	--	--	---

Operation Box

127

Fill in each blank box with a number so that everything that touches is true and positive.

				Start
7	+		=	9
=				-
	+	2	=
