

Parts of Speechless

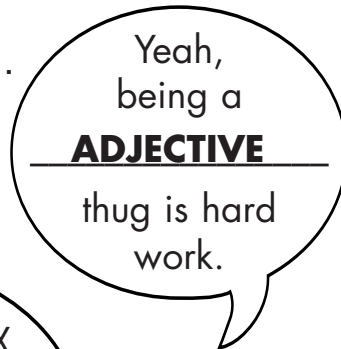

Dr. X's thugs don't know much about parts of speech. (In fact, they don't know much about anything, but that's another story.)

It wouldn't hurt for us to review a little either. We'll do it in two parts. First, match each definition with a part of speech. Then in the speech bubbles, write the part of speech that is missing.

Go Hammer here...

You've been working pretty hard. You need something fun to do. Why not draw a cartoon or a comic strip about the thugs? Put in speech bubbles to show conversation.
