

# When You've Got to Share!

Little Lucy and her friends all brought candies to school to share at recess. Read each story below. Circle equal groups using the clues in the story. Write the answer in the large piece of candy at the end of each problem.

<p>1. Melissa brought eight wrapped candies. She plans to give them to her four friends. How many will each friend receive?</p> 	
<p>2. Cassie brought 12 peanut butter cups. She wants to give them to four girls by the swings. How many will each one be able to eat?</p> 	
<p>3. Jessica brought 6 blue lollipops. She wants to share them with three children near the slide. How many pieces will they each get?</p> 	
<p>4. Chrysanthemum wants to share her 18 boxes of raisins. There are 6 kids waiting in line. How many will she give them?</p>
